Diplomate, American Board of Dental Sleep Medicine
6410 Rockledge Drive | Suite 106 | Bethesda, MD 20817

Virtual Consultations

Due to the COVID-19 health epidemic, we are unable to see patients in the office for routine or elective procedures. In an effort to remain available to our patients, we have decided to offer virtual consultations. This will allow you to be able to connect with Dr. Greenbaum while continuing to social distance.

What is a virtual consultation?

A virtual consultation will work similarly to an in-office appointment. Before your appointment, we will provide you instructions on filling out and submitting your patient forms.

What platform is used for virtual consultations?

We are willing to work with you on choosing the best platform for your virtual consultation. If you have an iPhone, we would recommend using FaceTime. If that doesn't work, we are also open to the use of Skype.

How do I schedule a virtual consultation?

Our goal is to make the process of scheduling a virtual appointment as easy as possible. To schedule your virtual consultation with Dr. Greenbaum, please complete our contact form below and select "Telemedicine Appointment" or call us at 301-530-3600. Your form will be delivered directly to our office and we will contact you to arrange a time for your appointment.

If you are experiencing a sleep apnea emergency, we will make every effort to schedule an appointment with Dr. Greenbaum as soon as possible.
